

Request for Comments

Dear OER Symposium Participant:

Thank you for participating in the OER symposium. The aim of the meeting is not only to highlight FY 2012 science results but also to demonstrate how to build on ocean discoveries to catalyze research and support other programs.

In addition, we would like to gather comments to inform future program directions. We welcome your comments and suggestions. You can submit comments by leaving them in the Comments Box set up in the meeting room itself or submit them via email after the meeting to: Nathalie.Valette-Silver@noaa.gov

Thank you in advance for your help.
